

EDUCATION

B.Tech (Hons.), Electronics and Communication

Gandhi Institute of Engineering & Technology, Gunupur

2018 - 2022

CGPA: 8.01/10

Senior Secondary (XII), Science

Loyola Convent School

((CBSE BOARD) board)

Year of completion: 2018

Percentage: 69.70%

Secondary (X)

Loyola Convent School

(CBSE board)

Year of completion: 2016

CGPA: 8.80/10

INTERSHIPS

Data Science & Analytics

The Sparks Foundation, Singapore, Virtual

Sep 2020 - Present

In this internship, I had been assigned some tasks that, I have to complete before deadline. The tasks are to design various Machine Learning Models.

TRAININGS

Python

Kaggle, Online

Aug 2020 - Aug 2020

In this certification course, I had learnt the basics of python and solved some problem statements.

Create Your First Game With Python

Coursera, Online

Jun 2020 - Jun 2020

This was a online two hour course by Coursera Project Network. Here I have learnt how to use python for designing simple games during Qurentinee days (COVID-19)

Getting Started With AWS Machine Learning

Coursera, Online

Jun 2020 - Jul 2020

In this course I have learnt basics of Machine Learning and how Amazon uses Machine Learning for shipping goods I have also learnt about working of Amazon Lens and Amazon Sagemaker.

Machine Learning Using Python

Skyfi Labs, Online

May 2020 - Jun 2020

This was a project cum online course based on Machine Learning using Python. Here I did my project based on Boston Housing Model using Linear Regression analysis.

Joy Of Computing Using Python

Swayam Central (NPTEL Certification), Online

Jul 2019 - Oct 2019

Here I have learnt some basics of Python Programming and implemented my knowledge on small projects based on python.

PROJECTS

Supervised Machine Learning Model

Sep 2020 - Sep 2020

<https://github.com/kalyan474/GRIP-TASK-2.git>

In this project I have predicted the percentage of marks that a student is expected to score based upon the number of hours they studied.
